

JDH

Hi I'm Justin. I first got into the rave scene around 94. The set that got me hooked was Dougal from Fantazia 4th Dimension. Never looked back. First rave I went to was southern exposure at Coney beach in porthcawl 95. Then the first big rave was Dreamscape 26 at Royal Bath and West Showground in Shepton Mallet.

My favourite Dj's are Sy, Brisk, Dougal, Gammer, Styles, Gareth Emery, Guiseppe Ottaviani, Hype, Cally & Juice, Mark EG and Hype.

97 I got into trance and travelled to Ibiza for a boys holiday in 98. What an experience!! Then started to mix trance alongside happy hardcore, which progressed into hard trance and hard house also. I bought my first set of turntables in 98. Just belt drives to get myself started and been mixing ever since. Progressed to 1210s around 2001. They were my babies until 2014.

It was then my life took a turn for the worst. Breaking my neck in two places my back in five places my shoulder ten ribs and my ankle. Spending 7 months in hospital, it dawned on me I could no longer use my 1210s as I could no longer bend etc. So I purchased Numark NDX 500s to help me get back into mixing 3yrs ago. But recently upgraded to the Pioneer XDJ RX, which I absolutely love.

The backend of last year I joined CTF and wanted to join a group that not only had similar interests but showcasing their skills. I wanted to be part of that and can only see this group going from strength to strength.
