

DJ JD aka Jamie Denscombe
I started djing in an almost empty bar in 1996, playing garage.. ...but it was fun. I then did a bit of pirate radio in London for Passion FM 105.1 in 1997. I launched my own DJ page 'DJ JDs Live Streams' in January 2018 and joined CTF family in the same year. I currently play on a Numark Mixtrack Pro 3 controller which I got in 2016 and it's a great piece of kit!!! I love playing Old Skool, Jungle, Happy Hardcore, UK hardcore, New Skool Rave Breaks and can be found regularly doing live sets on CTF.
