

DIZTRUXSHON

Got into the rave scene at about 13 as I went into high school. Always had a tape player on me blaring tapes from Diztruxshon and T.F.I I didnt get into mixing music untill around 14-15,learnt to mix on vinyl firstly mixing cheeky traxx then worked my way up to hardcore over a couple of years. I mixed and tried to get my own spin on it but ended up giving it up for fair few years. Fast forward to around 2015 ,got myself a a little setup and got back into it mixing uk hardcore, hardstyle, hardcore, bounce, hard house and just kept it going. I'm still a learner and f**k up every once in a while, but hey thats part of the journey 😊
