

Dj Freedom aka Simon Jephson

Based in Derbyshire Simon has been a raver since 1991 (yes older than he looks and acts) the early acts like The Prodigy and Altern 8 were the gateway to where he is today. Local raves attended were Vibealite in the fantastic Venue44, Kinetic at Stoke and his favoured Diehard in Leicester. During that period Decks were bought and records hunted down and the music became a drug. As the music progressed and started to segregate he started to crave the sounds pioneered by the likes of Sharkey and Billy Bunter the trancey sound that birthed Freeform the rest is history

An opportunity to play out for local promoters and friends arose and played regularly for UKHardcoreenergy and offered the ravers something different with every set. Nowadays his taste remains the same but broader taking in the slower bpm's but the core of the music is the same, hard underground music as well as dipping his toe in the world of production with 1 release under his belt and tuition under to advance his skills both in production and Djing Catch Freedom's shows for a variety of genres: Freeform, Hardcore, Hard house, Hard trance, Breaks & Techno
